EXAMINER'S AMENDMENT

1. Applicant's election of invention in Group I (claims 1-7 and 10-13) in the reply filed on 7/6/2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. This application is in condition for allowance except for the presence of claims 8 and 9 to invention non-elected without traverse. Accordingly, claims 8 and 9 have been cancelled.

Allowable Subject Matter

3. Claims 1-7 and 10-13 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art (i.e. Aagard) does not disclose or make obvious a device for optical measuring systems comprising, in addition to the other recited features of the claim, a single optical fiber passing both a measuring signal and a partially reflected measuring signal and a single detector detecting the intensity of both the partially reflected signal and the measuring signal as claimed in claims 1 and 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
